ADDITIONAL SERVICES

Examples of the tailor-made packing options that we offer

Our standard packing is to wrap each tin with a polybag first, then packed into an inner carton, lastly these inner cartons would be safely stored in an outer carton, so as to ensure the boxes arrive without a scratch.

But our process is very flexible and we can always change how your tins are packed, depending on your needs and / or requirements.

And if you need extra packing services like shrink wrap/ mail-order box/ blister (Velvet/ APET/ Foam/ paper) / different accessories, just let us know and we can provide you a hassle-free solution!
